## Profile

---

Passionate Front-End Developer and fresh graduate with solid experience in building responsive websites using HTML, CSS, JavaScript, and Bootstrap. Skilled in version control with Git and GitHub.

Currently expanding technical knowledge by learning Angular and back-end development with C# and .NET, aiming to become a full-stack developer.

Graduate of Helwan University – Faculty of Computers & Artificial Intelligence, with hands-on academic and personal projects. Known for strong self-learning and research abilities using documentation, forums, and online resources to troubleshoot problems and implement modern solutions.

## Professional Experience

---

02/2023 – 05/2023

### Front-End Intern

*Digital Pathways for Employment (DPE)*

- Participated in a structured front-end development internship focused on building modern websites.
- Received hands-on training and supervision in HTML, CSS3, Bootstrap, JavaScript, Git, and GitHub.
- Contributed to the design and development of internal company projects.
- Worked on a final project for the company and presented it during a graduation day event.
- Successfully completed the internship with a final score of **91%**.

## Education

---

09/2019 – 06/2023

### Bachelor's Degree in Computer Science

*Faculty of Computers & Artificial Intelligence – Helwan University*

Grade: Very Good (GPA: 2.8)

## Skills

---

### Front-End

- HTML5, CSS3, JavaScript
- Bootstrap (Responsive Design)
- Git & GitHub (Version Control)
- Angular (Learning/Beginner)

### Tools & Workflow

- VS Code, Git, GitHub
- Agile basics
- Chrome DevTools

### Back-End (Basic Knowledge)

- C#, ASP.NET ☑ (in progress)
- SQL (basic understanding)
- REST API fundamentals

### Soft Skills / Additional Skills

- Problem-solving
- Strong online research skills (Google, Stack Overflow, docs)
- Self-learning & adaptability
- Team collaboration
- Time management

## Projects

---

### Personal Front-End Projects ☑

- Multiple small-to-medium web projects hosted on GitHub
- Examples include landing pages, form validation apps, and responsive websites

- 1. Weather App** Developed a dynamic weather application using JavaScript and WeatherAPI. Displays real-time weather data with responsive UI and location-based search.
- 2. Games Collection** Created a set of mini browser-based games using HTML, CSS, and JavaScript. Focused on interactivity and UI responsiveness.
- 3. Bakery Website** Designed and developed a bakery landing page with a responsive layout using Bootstrap. Included product showcase and contact form.
- 4. DevFolio** Built a modern personal portfolio inspired by DevFolio design, using HTML, CSS, JavaScript, and responsive techniques.
- 5. Fokir Portfolio** Cloned the Fokir design to practice layout structuring and styling. Focused on pixel-perfect implementation and mobile responsiveness.
- 6. Login Form Page** Created a secure and clean login form interface using HTML, CSS, and JavaScript validation techniques.
- 7. Bookmark Manager** Developed a web app for saving website bookmarks using LocalStorage. Includes form validation, error messages, and interactive UI.
- 8. Mealfiy** Built a modern food-related website using HTML, CSS, and JavaScript. Focused on clean UI design, responsive layout, and user-friendly navigation for showcasing meals or recipes.
  - Currently working on more projects to be published soon
